## Transition CAMO Services

### Continuing Airworthiness Management:

Eirtech will manage the continuing airworthiness of your aircraft during transition between operators. Including:

- CAMO Induction.
- AMP development.
- Control of workpacks during storage, heavy maintenance and modifications.
- Control of mandatory & airworthiness tasks.
- Management of Technical Records.
- Production of Final Status documents.
- CAMO Phase-Out.

**Multiple Approvals:** Eirtech CAMO will manage your aircraft on any EASA Registry of your choosing. We also have extensive experience managing aircraft registered in Guernsey (2-REG), Bermuda and the Cayman Islands.

Contact us at

**Shadow CAMO Management:** Eirtech CAMO will monitor the airworthiness management of leased aircraft on an ongoing basis, providing valuable feedback to aircraft owners and lessors.

**Support of "N- Reg" aircraft:** On behalf of the aircraft owner, we will manage airworthiness compliance including management of workscopes and liaise with DAR on applications for Special Ferry Permits and Export C of A.

**ARC Review:** For EASA registered aircraft (including imports to EASA), Eirtech's Airworthiness Review Staff will perform an airworthiness review and provide ARC Recommendations to the Competent Authority of the State of Registration.

**Complex Situations:** Eirtech's CAMO has vast experience in supporting challenging and complex aircraft transitions and repossessions. We are available to discuss your requirements and provide you with a solution that will ensure your asset is protected, and prepared for your next lessee in a timeframe that meets your needs.

\*Eirtech are pleased to discuss CAMO requirements for all Aircraft Type approvals.
